### 1.2 Faculty of Nursing

The Faculty of Nursing at the University of Colombo is the first and only Faculty in the discipline name of Nursing that is dedicated to producing graduate nurses. It was established in 2017 by the order published in *Gazette Extraordinary* No. 2002/32 of January 18, 2017, to address a long-felt need in Sri Lanka to strengthen and upgrade nursing education. Faculty of Nursing offers a four-year Bachelor of Science Honours Degree in Nursing [B. Sc. Hons (Nursing)] to those who enroll in the faculty (Sri Lanka Qualification Framework Level 6). There are two entry pathways to the faculty, where 115 students are selected from the GCE A/L Biological Science stream and the 30% out of that intake are enrolled through the lateral entry pathway for nurses with a diploma-level education. The overall aim of the Faculty of Nursing is to enhance Sri Lanka’s capacity to produce graduate nurses who are capable of catering to both national and international healthcare needs with advanced knowledge and skills which are based on a sound theoretical and practical foundation.

#### **Faculty Vision**

#### **Faculty Mission**

To provide graduates with excellence in nursing who devote for thoughtful innovations in national and international healthcare services with competence and compassion

### 1.3 Academic Department of the Faculty of Nursing

The three departments are as follows.

- a. Department of Basic Science and Social Science for Nursing
- b. Department of Fundamental Nursing

### 1.4 The Nursing Profession

Nursing is an art as well as a science. It is a unique profession within the healthcare sector focused on the care of individuals, families, and communities. Florence Nightingale was the founder of modern nursing. She laid the foundation of professional nursing with the establishment of her nursing school at St Thomas Hospital, London in 1860. Nurses play a vital role in the health care system of any country whose main goals are to promote healthy lifestyles,

prevent diseases, alleviate suffering, and rehabilitate individuals with disabilities. Therefore, most of the countries have strengthened their nursing profession through degree-level education and specialization in selected fields of nursing in order to provide effective and efficient health care for the public

Nursing is identified as a profession based on the criteria that a profession must have.

- a systematic body of knowledge that provides the framework for the profession's practice, standardized formal higher education
- commitment to provide a service that benefits individuals and the community, maintenance of a unique role that recognizes autonomy
- responsibility and accountability
- control of practice responsibility of the profession through standards and a code of ethics
- evidence-based practice
- commitment to members of the profession through professional organizations and activities

The nurse's primary professional responsibility is to provide nursing care for patients, families and the community. Nurses are accountable for facilitating a safe and therapeutic environment for the patients, delivering holistic and personalized care, maintaining accurate and up-to-date records and reports, protecting patient's legal rights and privacy, maintaining collaborative relationships with other healthcare professionals, working within ethical and legal boundaries, delegating responsibility appropriately, providing health education, focusing on evidence-based practice, and contributing to continuous professional development.

### **1.5 Program Learning Outcomes of the B.Sc. Nursing Degree (Hons) Program**

#### **Policy Against Sexual Harassment and Procedural Steps for Enforcement**

**This Policy provides for the prevention of sexual harassment, and a complaints mechanism for persons affected by sexual harassment. It applies to persons and places that come under the aegis of the University of Colombo.**

#### **1. General Principles**

The University of Colombo is committed to maintaining a learning environment and workplace that are free of sexual harassment to all persons, irrespective of gender. Based on the fundamental values of human dignity, gender equality and respect for due process, this policy seeks to spell what sexual harassment means, prevent the occurrence of sexual harassment within the University of Colombo, and provide suitable procedures for inquiring into, and punishing acts of sexual harassment.

In Sri Lanka, sexual harassment is a criminal offence under Section 345 of the Penal Code and is criminalized in the context of Higher Education under Section 2(2) of the *Prohibition on Ragging and All Forms of Violence in Education Institutions Act* No 20 of 1998. Furthermore, the Constitution guarantees the right to equality and equal protection of the law including the prohibition of discrimination on the basis of sex (Article 12(1) & (2)), and guarantees the freedom to engage in a lawful occupation (Article 14(1)(g)). Sri Lanka's international legal obligations under CEDAW (the Convention on the Elimination of All forms of Discrimination Against Women) and the ILO (International Labour Organization) Convention 111 titled 'Discrimination in Respect of Employment and Occupation' also require the prevention of sexual harassment in the workplace and the provision of remedies for victims of sexual harassment.

**1.1. Objectives**

- (i) To promote a culture at the University of Colombo in which the dignity and equality of all persons are respected
- (ii) To prevent the occurrence of sexual harassment through targeted, preventative interventions
- (iii) To adopt a zero tolerance on acts of sexual harassment and mechanisms to provide for the resolution of complaints through mediation and/or disciplinary action

**1.2. Definition of Sexual Harassment**

Sexual Harassment refers to any act (physical, verbal, gestural, visual, tacit or written) that inflicts physical, mental or other harm or annoyance based on another person's gender and/or sexuality. Such acts constitute sexual harassment, which applies when all members of the university community (see 1.4 for persons governed under this policy) engage in any of the above acts. (For examples see Acts Subject to Disciplinary Action – Section 2).

**1.3. General Conduct**

All persons who are governed by this Policy are required to follow accepted ethical standards in their conduct and are required to refrain from committing acts of sexual harassment, abstain from promoting sexual harassment or encouraging it, desist from concealing acts of sexual harassment, contribute to efforts undertaken by the University to prevent sexual harassment, and promote a culture of respect for all persons irrespective of gender.

Such persons shall, for example,
